## 2. DESCRIPTION

---

Brake cleaner is a high quality product based on aliphatic hydrocarbons /alcohol solvents. This product removes dirt, dust, brake fluid etc. efficiently.

## 3. APPLICATION

---

Brake cleaner is used to remove grease, dirt and brake dust from brake and clutch parts. Use on brake discs, drums, pads, cylinders and callipers. Can also be used on clutch components.

## 4. DIRECTIONS FOR USE

---

Spray onto the admission and carburettor parts until the grease, dirt and dust are gone.

## 5. SPECIFICATIONS

---

Colour: Transparent  
Odour: Solvent  
Solvents: Hydrocarbons and alcohols  
Propellant: Butane/Propane  
Physical inf.: See MSDS

The information contained herein has been obtained as the result of testing and development work carried out by us. However, this product can be put to numerous uses under widely varying circumstances and conditions and accordingly we do not guarantee the accuracy of the content of the statements contained herein, and in particular, we do not warrant that this product is suitable for any particular use. We shall not be liable in any way whatsoever to any person who relies upon the contained herein without taking sufficient steps to ensure in advance that the product is suitable for this particular purpose, production, conditions and/or use.
