

## TECHNICAL DATA SHEET

### 1. IDENTIFICATION OF THE PRODUCT AND THE COMPANY

<b>NAME OF THE PRODUCT</b>	Undercoating spray gun
<b>CODE</b>	050070
<b>DISTRIBUTOR</b>	BOSSAUTO INNOVA, S.A.
<b>ADDRESS</b>	c/ Thomas Edison 16, Apartado de correos 95
<b>CITY</b>	08430 La Roca del Vallés (Barcelona) SPAIN
<b>PHONE</b>	+ 34 93 860 49 23
<b>FAX</b>	+34 93 871 23 36
<b>E-MAIL</b>	<a href="mailto:info@bossauto.com">info@bossauto.com</a>
<b>WEB</b>	<a href="http://www.bossauto.com">www.bossauto.com</a>

### 2. DESCRIPTION

New spray gun for external and internal coating applications. A careful market research has shown that it is becoming increasingly more difficult to clean the spray instruments used for chemical coating products since they are getting more complex and sophisticated; in fact after use a normal spray gun has to be cleaned immediately so as not to risk the product drying out and so causing the inevitable obstruction of the nozzles that makes the spray gun unusable. The cleaning process itself takes up time and the use of solvents that considerably increase the costs of application.

The answer to this problem is the new undercoating spray gun (050070), which is equipped with a universal spray nozzle that can be thrown away with the empty can. However, if wished, the nozzle (made of solvent resisting materials) can be used again by immersed it in a small quantify of cleaning solvent; in the meantime one can continue working by using another clean nozzle on the spray gun. The cost of the nozzle however is much less than the cost of cleaning a normal spray gun and therefore it can be thrown away without hesitation. Provision has been made also for the quick connection to the nozzle of a special 1 metre long hose with a patented nozzle for the coating nebulization in boxes.

### 3. DIRECTIONS FOR USE

1. Screw the hose on A/205 body
2. Screw A/205 body on the blow gun
3. Connect and screw the complete body on the fin
4. Connect the gun to the air line
5. Quick bayonet connection with nylon hose Ø 8 x 1000 and atomizing nozzle.

The technical information is in accordance with our experience. We assure the quality of the product. However, the conditions of use are not under our control and we cannot assume any responsibility of the obtained results.
