

TECHNICAL DATA SHEET

1. IDENTIFICATION OF THE PRODUCT

NAME OF THE PRODUCT Water based degreaser 5L
CODE 020012

2. DESCRIPTION

Bossauto degreaser is a low-odour and VOC-compliant (less than 20 % solvent) waterborne degreasing agent for cleaning metal and plastic substrates, filled surfaces and slightly sanded old paintworks. It can be applied by paint brush, cloth, sponge and by spraying. Use a clean and dry rag to remove Bossauto degreaser after application.

3. COLOR

Colorless.

4. VOC REGULATION

EU limit value: Category B/a 200 g/l
This product contains max. 189 g/l.

5. PROCESSING TIPS

Don't allow Bossauto degreaser to dry on the surface. Allow cleaned surfaces to evaporate well before further processing. Use compressed air to blow away residual moisture in edges, crimps and grooves.

Bossauto degreaser may contain floating particles, which is not a quality defect as these particles are readily dissolved by shaking the before use.

The technical information is in accordance with our experience. We assure the quality of the product. However, the conditions of use are not under our control and we cannot assume any responsibility of the obtained results.
