

TECHNICAL DATA SHEET

1. IDENTIFICATION OF THE PRODUCT

| | |
|----------------------------|-------------------------------------|
| NAME OF THE PRODUCT | Boss Soft fine multi-purpose, 2 Kg. |
| CODE | 070035 |

2. DESCRIPTION

Boss Soft fine multi-purpose is a polyester filler suitable for many repair requirements, perfect results and adherence to steel plate, electro-zinc and galvanised plating or aluminium. Noted for its excellent sanded finish and ease of application, owing to its creamy and fine texture. Suitable for use as a filler and for refinishing.

Another highlight of this filler is that it can be used in the marine industry.

3. PHYSICAL CHARACTERISTICS
