2. DESCRIPTION

If you're looking for a missing link between washing and waxing, spray on SMOOTH. It removes minor contaminants, dust, fingerprints, bugs, and more, restoring the brilliance of a showroom finish. As a good friend of clay bar, SMOOTH lubricates the paint so well while rubbing the clay back and forth. It can also be used on glass, chrome, and plastic. The spray dries crystal clear on any surface and enhances reflections on shiny materials, like chrome wheels and trim. It's so easy and you can detail a full-size car in less than 10 minutes.

- **Contains silicone.**
- Missing link between washing and waxing
- Restores the brilliance of a showroom finish
- A clay lubricant
- Can be used on glass, chrome, and plastic
- Enhance reflections on shiny materials
- Home, office, boat, auto, and many other applications

3. SURFACE PREPARATION AND APPLICATION

1. Shake well. Use only on clean, cool paint and out of direct sunlight.
2. Mist SMOOTH onto one section at a time.
3. Quickly spread product with clean dry microfiber towel.
4. Turn to a dry portion of the towel, then wipe dry.
