WEB	www.bossauto.com

2. DESCRIPTION

- Creates a protective finish
- Effectively resists soils and stains
- Safe for all types of fabrics and fibers
- Water & oil repellent
- Dries quickly
- Spray-on, leave-off
- Home, office, boat, auto, and many other applications

NANOSKIN FABRIC is a professional strength treatment that creates a protective finish that effectively resists soils and stains. It is safe for all types of fabrics and fibers including silk and sisal. Soils and spills simply blot from the surface. FABRIC is easy to use, and the solvent formulation dries quickly. Perfect for use wherever your valuable investments need to be protected from stains and spills: in the home, office, boat, auto, and many other applications.

3. DIRECTIONS

Apply to any new or cleaned fabric.
Test fabric for color stability before use.
Hold applicator 8 to 10 inches away and spray in a sweeping motion.
Do not saturate. A light coating is all that is needed.
Allow 1 hour drying time before using treated fabric.

NOTE: FABRIC will migrate (spread) and penetrate fabric extremely well. Over saturation will result in prolonged drying time.

4. COVERAGE

Coverage Per 16 Oz.
