2. DESCRIPTION

The dirt-repellant, washable skin protection protects against non-aqueous working substances.

3. MAIN CHARACTERISTICS

- The Invisible Glove Bossauto is a dirt-repellant, washable skin protection product which simplifies hand washing.
- It protects skin when handling non-aqueous working substances such as oil, fat, lubricants, cast steel dust, graphite dust, paint, varnish, soot, adhesives, bitumen, etc.
- The Invisible Glove reduces skin contact to many working substances through special inorganic protective pigments and diminishes the deep penetration of dirt into the skin.
- It simplifies the cleaning process with the addition of dirt-binding ingredients and skin friendly, mild surfactants. In many cases soap is not needed. The dirt can be simply rinsed off with water.
- It is not greasy, can be easily applied to the skin and is quickly absorbed. Only a small amount goes a long way. Approximate 1 ml of product (a press of the dispenser or a pea-sized amount of the tube) is enough to protect your hands.
- The Invisible Glove can help to prevent skin-related illness and downtime in the company.

4. COMPOSITION

- The Invisible glove is pH-neutral to skin.
- It contains an anti-inflammatory hamamelis extract and glycerin as a moisturizer.
- It is silicon-free, and also free of preservatives and perfumes.
- It has been dermatologically tested, and it is based on a raw materials which are dermatologically and toxicologically safe.

5. APPLICATION

Make sure your skin is clean and dry and then carefully rub in Invisible Glove Bossauto before beginning work (particularly into the bed of your nails).

Dirt can be rinsed off with water (and if needed, some hand cleanser). After washing hands, reapply.

6. PRODUCT DESCRIPTION

- White to grey suspension (no fat components)
- pH value: 5.4 – 5.8
- Density: 0.9 – 1.1 g/cm³ (20°C)

7. STATUTORY REQUIREMENTS

The Invisible Glove is subject to German Cosmetics Ordinance (KVO) as well as the Foodstuffs, Consumer and Commodities Act (LFGB). All cosmetics products in our programme are manufactured according to the GMP (Good Manufacturing Practice) and are subject to a microbial quality assurance check.

8. STORAGE INFORMATION

The Invisible Glove can be stored in closed original containers at room temperature for at least 24 months.

9. SKIN CARE INFORMATION

When working with noxious substances, a suitable skin protection agent like this Invisible Glove should be applied before starting work.

Depending on the type of soiling, a suitable hand cleansing agent should be applied (see reference 100344 – 100345 Mecastar for medium to heavy soiling). After finishing work, a suitable hand care agent should be rubbed into the skin regularly in order to aid regeneration (see reference 100346 – Hydracrem as a skin care lotion, rich in active ingredients).

10. FURTHER INFORMATION

See Safety Data Sheet.

Certificate: the product "Invisible Glove" received a score of "very good" for the dermatological and allergological examinations supervised by a specialist doctor.
