

# TECHNICAL DATA SHEET

## 1. IDENTIFICATION OF THE PRODUCT

**NAME OF THE PRODUCT** MAGIC MICROFIBER CLOTH, 40x40 cm  
**CODE** 100063

## 2. PROPERITES

Microfiber magic cloth is woven combining different high quality synthetic materials. It provides a thorough cleaning action because of its microfiber, which penetrates into pores of materials to remove dirt. Used for a multiple use: cleaning vehicle's interiors and body, but also for domestic cleaning (kitchen, bathroom, soil, etc.). Excellent for people who is allergic to some cleaning products. It does not scratch surfaces, and allows you to save time.

## 3. APPLICATION

It can be used in both dry and wet.

### A. Wet

Moisture the cloth with warm water, drain it well and it will be ready to use. Just with one wipe is enough. It does not need to be dried it or used with any other cleaning products.

### B. Dry

Perfect for remove dust.

### C. Maintenance

To get more durability (at least 2 years), we recommend to clean the cloth with warm water and neutral soap. To reactive fibers we recommend to boil the cloth during 5-10 minutes in a recipient with water and neutral soap. Do not use chemical or ammoniated soaps.

## 4. TECHNICAL DATA
